REPORT OF HEALTH OFFICER

In accordance with the usual custom, I herewith submit my report as Health Officer for the year ending January 31, 1921.

For the greater part of the year we were fortunate as regards contagious diseases, but as winter came upon us many communicable diseases were reported, as follows: six cases measles, six diphtheria, and eighteen scarlet fever. I disinfected each house and tried to do all in my power to prevent

the spread. In fact, after careful consideration I ordered the schools and places of amusement closed for two weeks.

It is very gratifying to report that not one venereal disease exists in our town. Clean-up week was again observed with good success. At this time I wish to call the attention of our citizens to the law relating to sink drains, privies and vaults, also to the business men regarding the sale of foods, confectionery, etc., unnecessarily exposed to flies, dust or dirt.

It is the duty of the Health Officer to see that the health laws are enforced and with the assistance of all I shall endeavor so to do.

Respectfully,

GEORGE A. GILMORE,
Health Officer.
